

Academy Talent Philosophy

- We recognise that players develop at different rates and our programme offers a wide range of opportunities to develop key skills throughout the Academy.
- We commit to help **all** players develop, recognising that their experiences as a young player will significantly influence their future enjoyment and performance in the sport.
- We design our competition structure to provide opportunities for all players to participate, with a focus on continuous development of both their skills and mind-set.
- We provide additional support to players who are committed to maximise their potential and consistently; embrace challenges, overcome setbacks, learn from feedback and take ownership of their own development.
- We are committed to working together with players and parents to help provide opportunities for players to maximise their potential and enjoy playing sport.
- As coaches and managers, we aim to consistently reflect and improve on our own coaching processes and structures, whilst aiming to provide a best in class Academy programme that is inclusive for all.
